Re: *Digital Output Protection Technology and Recording Method Certification;*
Windows Media Digital Rights Management Technology, MB Docket No. 04-298
Ex Parte Communication

Dear Ms. Dortch:

On September 13, 2004, Eric Grab- Director Security & DRM Architecture, Adrienne Pierre- Director Business Development, Tim Windsor- Product Manager Encoding Products and David Richter- Vice President and General Counsel for DivXNetworks, Inc, (DXN) met with the Media Bureau and Commission Staff (including Susan Mort, Alison Greenwald, Jeff Neumann, Alan Stillwell, Rick Chessen, William Johnson, John Gabrysch, Steve Broeckaert) to discuss the above fore mentioned certification for inclusion as an accepted broadcast copy protection technology. We explained DXNs Digital Rights Management (DRM) and DivX Certification Program meets the requirements for security, robustness and copy protection, and are appropriate for use in covered DivX Certified Consumer Electronics devices to give effect to the Broadcast Flag. We presented, demonstrated and discussed the ways in which DXN DRM can prevent the unlawful and indiscriminant redistribution of digital broadcast content encoded with the Broadcast Flag.

If you have any questions please direct them to my attention.

Regards,

Adrienne Pierre
Director, Business Development
